DETAILED ACTION

Receipt is acknowledged of the response filed 12/22/2008.

The rejection under 35 USC 102(e) is withdrawn in view of applicant's response.

The following is a new rejection of the claims:

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 180-187 are rejected under 35 U.S.C. 102(e) as being anticipated by
Canham (US Patent NO. 6,666,214)

The applied reference has a common inventor with the instant application.
Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

A mesoporous implant having the thickness, porosity and surface area characteristics of the instant invention is disclosed at Abstract, col. 8, lines 10-26. Porosity is set out in the claims along with drug delivery (see claims 1-3 and 7 in particular). While there is an electrical component to the invention of Canham, such a component is not excluded by the instant claims. The instant claims are anticipated by Canham.

Claims 188-189 are objected to as dependent upon a rejected base claim.
